Santa Clara River Loop Trail

A proposed 8 mile multi-use trail on the north and south banks of the Santa Clara River between the cities of Oxnard and Ventura. Friends of the Santa Clara River & Sierra Club received support from the National Park Service to study alternative routes to complete gaps, and to prepare for construction grants.

How can you help?
Portions of the trail already exist, however, gaps need to be completed. Be an advocate for the trail and tell your friends, neighbors and representatives to help build constituency. By joining our mailing list you can get updates and in our river advocacy and activities.

Friends of the Santa Clara River is a non-profit organization. Our mission is to protect and preserve the cultural and biological resources of the Santa Clara River Watershed.
- The River provides water for agriculture and cities, and has wonderful habitat, yet few know of its value and is mostly inaccessible.
- The Loop Trail will be part of a larger parkway system connecting Santa Paula, Fillmore, and trails near Santa Clarita.

Help us make the river part of the community!
